

## Please Donate Your Empty Inkjet Printer Cartridges

St. John Vianney Regional School will be collecting **empty inkjet printer cartridges for recycling** by the Funding Factory. The Funding Factory coordinates the recycling of the cartridges which are either refilled and resold or used for parts. Our school, in turn, receives points for the cartridges submitted, which are applied toward computers, educational software, or audiovisual needs. We ask all families to consider collecting cartridges from their homes, places of business and any other source which they might have. *Please send in your empty inkjet cartridges with your child or drop them off – into marked receptacles located in the **school foyer, the office, or the church vestibule**.* If you have any comments, please contact Mrs. Kottke. Thank you for your continuing support. You can find more information on this program at [www.fundingfactory.com](http://www.fundingfactory.com). Note: We also participate in Staples rewards program and submit the maximum allowable cartridges there.

**YES** – inkjet cartridges from any manufacturer

**NO** laser toner cartridges
